

## Short-Listing Procedure for GD-PI

Selection of candidates is based on CAT (Common Admission Test, conducted by the IIMs) and candidates' educational backgrounds.

### CRITERION FOR SHORT-LISTING FOR GD/PI

- It is decided to call candidates for GD-PI *eight times* of the seats in each category.
- Sectional cutoffs for all the three sections in CAT percentile result is 70 and overall aggregate cut off is 94 percentile for MBA(Financial Management) and 90.25 for MBA(Business Economics) for short-listing General Category candidates for GD/PI.
- Then, overall index is prepared for all the categories on the basis of criterion already announced and which are follows:
  - CAT Percentile - *Weightage – 75%*
  - Marks obtained in Class-X - *Weightage – 10%*
  - Marks obtained (best of four) in Class-XII - *Weightage – 7.50%*
  - Marks obtained in Mathematics/Business Mathematics in Class-XII Examination - *Weightage – 2.50%*
  - Candidates with the above mentioned Graduate Degrees - *Weightage – 5%*

The following grading system is used for the marks obtained in different class X, XII and marks in Mathematics.

| GRADING SYSTEM ADOPTED FOR MARKS |    |
|----------------------------------|----|
| 95% and More                     | 10 |
| 90% and more but less than 95%   | 9  |
| 85% and more but less than 90%   | 8  |
| 80% and more but less than 85%   | 7  |
| 75% and more but less than 80%   | 6  |
| 70% and more but less than 75%   | 5  |
| 65% and more but less than 70%   | 4  |
| 60% and more but less than 65%   | 3  |
| 55% and more but less than 60%   | 2  |
| 50% and more but less than 55%   | 1  |
| Less than 50%                    | 0  |

Accordingly, the following index cut-offs are observed for the categories:

| Category | MBA(Financial Management) | MBA(Business Economics) |
|----------|---------------------------|-------------------------|
| General  | 87.72                     | 84.02                   |
| OBC      | 76.08                     | 52.50                   |
| SC       | 61.97                     | 41.77                   |
| ST       | 23.65                     | 5.26                    |
| CW       | 25.13                     | 25.13                   |
| PH       | 19.49                     | 16.61                   |
